INDEPENDENT AUDITORS' REPORT

Board of Directors
State Employees' Credit Union Foundation
Raleigh, North Carolina

Report on Financial Statements

We have audited the accompanying financial statements of State Employees' Credit Union Foundation (the Foundation), which comprise the statements of financial position as of June 30, 2020 and 2019, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Foundation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Directors
State Employees' Credit Union Foundation

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of June 30, 2020 and 2019, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The report of the Board of Directors, Executive Director and Contact Information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

June 30, 2020 and 2019

Note 1: Organization and Summary of Significant Accounting Policies

Organization: The State Employees' Credit Union Foundation (the Foundation) is a private, non-profit, charitable foundation established by the membership of the State Employees' Credit Union (SECU or Credit Union) in North Carolina. The Foundation was approved by the Internal Revenue Service as a 501(c) (3) corporation in 2001 and began operating in July 2004. The focus of the Foundation is to promote local community development primarily through high impact projects in the areas of housing, education, healthcare and human services. The members of the Board of Directors of SECU and three additional appointees serve as the Board of Directors of the Foundation. As an extension of the cooperative ideals on which the Credit Union was founded, the funding for the Foundation is provided solely through donations of SECU members. Members provide the funding of the Foundation primarily through voluntary contributions of \$1.00 monthly maintenance fees on checking accounts. These fees would otherwise go toward the operation of the Credit Union. Additional voluntary unrestricted contributions from members are accepted. Currently, contributions are limited exclusively to SECU members. While a \$1.00 per month maintenance fee contribution is generally not a significant burden on any individual member, the collective impact of the donations creates opportunities to positively impact and improve the quality of life in neighborhoods and communities throughout North Carolina. The SECU Foundation is an outreach of the "People Helping People®" cooperative philosophy on which the Credit Union was organized and by which the Credit Union operates.

Basis of Accounting: The financial statements of the Foundation are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America for non-profit organizations. The financial statements include the accounts maintained by and directly under the control of the Foundation.

The financial statements of the Foundation are presented following the guidance of the "Not-for-Profit Organizations – Audit and Accounting Guide," including ASC 958-605 "Accounting for Contributions Received and Contributions Made" and ASC 958-205, "Financial Statements of Not-for-Profit Organizations" which require the Foundation to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restriction.

Net assets without donor restrictions are available for use in general operations. Board designated funds represent net assets without donor restrictions which are designated by the Board of Directors of the Foundation (the Board) action for scholarships or grants. All net assets of the Foundation were classified as without donor restrictions as of June 30, 2020 and 2019.

Net assets with donor restrictions consist of amounts that are subject to donor restrictions and income earned on donor restricted investments in perpetuity. The Foundation is permitted to use up or expend the donated assets in accordance with the donor restriction. The Foundation does not have any net assets with donor restrictions as of June 30, 2020 and 2019.

Cash and Cash Equivalents: For purposes relating to the statements of cash flows, the Foundation considers all highly liquid debt instruments with a maturity of three months or less, at the time of purchase, to be cash equivalents. The Foundation also includes money market accounts as cash equivalents. Cash and cash equivalents are held at the State Employees' Credit Union.

The Foundation maintains cash balances at SECU. Accounts are insured by the National Credit Union Share Insurance Fund (NCUSIF) up to specified limits. Balances in these accounts generally exceed NCUSIF limits. The Foundation held balances in excess of NCUSIF limits of \$33,500,164 and \$37,605,915 as of June 30, 2020 and 2019, respectively.

Loans Receivable: In furtherance of its charitable purpose, the Foundation provides loans to certain tax-exempt organizations primarily to build housing initiatives that support teachers, older adults and persons with disabilities in North Carolina. Loans receivable are recorded during the year in which the funds are disbursed. Loans are stated at the amount of unpaid principal, reduced by an allowance for loan losses. Management has an established methodology to determine the adequacy of the allowance for loan losses that assesses the risks and losses inherent in the loan portfolio. The Allowance for Loan Loss was \$491,572 and \$413,904 as of June 30, 2020 and 2019, respectively. Past due status is based on contractual terms of the loan.

Grants and Scholarships: Unconditional grants and scholarships are recorded as an expense during the year of approval. Grants and scholarships subject to certain conditions are recorded as expenses during the year in which conditions are substantially met or when the possibility that the conditions will not be met is remote, as determined by management. Grants and scholarships payable within one year are recorded at their fair value at the date of authorization. Grants and scholarships payable in more than one year are recorded at the present value of their future cash flows, using a risk-free rate of return based on U.S. Treasury securities.

Revenue Recognition: The Foundation has adopted the accounting treatment prescribed by Financial Accounting Standards Board ASC 958, Accounting for Contributions Received and Contributions Made, and Financial Statements for Not-for-Profit Organizations (FASB ASC 958). In accordance with FASB ASC 958, contributions received by the Foundation are treated as net assets without donor restrictions unless restricted by donor. As of June 30, 2020, there are no donor restrictions present.

Net Assets: As of June 30, 2020, and 2019, all net assets of the Foundation were classified as without donor restriction. These assets have no donor restrictions and may be used for any purpose consistent with the mission of the Foundation. Undesignated net assets of \$5,380,757 and \$17,323,393 are available to be awarded as of June 30, 2020 and 2019, respectively. The Board designated \$26,435,812 and \$21,452,772 of net assets without donor restrictions for current projects related to amounts included in loans receivable and any unfunded construction loan commitments as of June 30, 2020 and 2019, respectively.

Contributed Services: Donations of services that create or enhance physical assets and essential services that require and are donated by persons with specialized skills are to be measured at fair value and reported as increases in net assets without donor restrictions during the reporting period. Services donated by persons without specialized skills are not recorded. The Foundation does not own physical assets. The Foundation receives donations of management, legal, and accounting services as contributed services. Expenses related to contributed services are included in management and general expense on the Statements of Activities and Changes in Net Assets. Contributed services provided by persons with specialized skills and support services in the amounts of \$674,197 and \$628,973 were recognized in the years ended June 30, 2020 and 2019, respectively.

Functional Allocation of Expenses: The Foundation reports expenses on a functional basis in the statement of activities and changes in net assets. These functions consist of programs as well as management and general. Expenses directly related to individual programs are classified as program expenses. Taxes, insurance, and administrative costs related to SECU Foundation are reported as general and management.

Federal Excise Taxes: The Foundation qualifies as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code and is not subject to federal income taxation except to the extent that it has unrelated business taxable income. The Foundation is classified as a private foundation and is subject to a Federal excise tax of two percent on net investment income unless certain conditions are met in which case the Federal excise tax is 1 percent. In both 2020 and 2019 the Foundation was subject to a one percent rate with estimated excise tax expenses of \$5,611 and \$6,990, respectively.

Management has evaluated the Foundation's tax positions and concluded that the Foundation has taken no uncertain tax positions that would require adjustments or disclosure in the Financial Statements to comply with the provisions of ASC Topic 740, Accounting for Uncertainty in Income Taxes.

The Foundation is also required to make certain minimum qualifying distributions of its assets in accordance with formulas provided by Federal law. As a private foundation, SECU Foundation is required to make a minimum distribution of five percent of the net value of noncharitable-use assets. The minimum distribution may be further increased for recoveries of amounts treated as distributions from a previous year. In 2020, the Foundation was required to make minimum distributions of \$5,284,543 (\$3,358,245 in 2019). The Foundation made qualifying distributions in 2020 totaling \$25,388,211 and \$20,136,953 in 2019, satisfying the minimum requirements.

Use of Estimates: When preparing these financial statements in conformity with generally accepted accounting principles in the United States of America, management is required to make certain estimates that affect the reported amounts of assets and liabilities as of the date of the financial statements and the revenues and expenses in the reporting period. Actual results could differ from those estimates.

In March 2020, the World Health Organization (WHO) declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. This global pandemic brings additional uncertainties and susceptibility to significant change in the near term to the Foundation's determination of allowance for loan losses.

Change in Accounting Principle: For the year ended June 30, 2019 the Foundation has adopted Accounting Standards Update (ASU) 2016-14, Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit Entities. The update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in the type of information provided about expenses and investment return. The Foundation adjusted the presentation of these statements accordingly. The ASU has been applied retrospectively to all periods presented and results in the following restatement of prior year amounts.

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (Topic 606). Subsequent to May 2014, the FASB issued six ASUs to clarify certain matters related to Topic 606. Topic 606 supersedes the revenue recognition requirements in FASB Accounting Standards Codification (ASC) 605, Revenue

Recognition, and requires the recognition of revenue when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. The updates address the complexity and understandability of revenue recognition and provide sufficient information to enable financial statements users to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The Foundation's financial statements reflect the application of ASC 606 guidance beginning July 1, 2019. No cumulative-effect adjustment in net assets was recorded because the adoption of ASU 2014-09 did not significantly impact the Organization's reported historical revenue.

During the year ended June 30, 2020, the Foundation adopted Guidance for Contributions Received and Contributions Made (Topic 958). This is a clarifying ASU that distinguishes between contributions and exchange transactions and assists in determining which guidance to apply. Additionally, once a transaction is deemed to be a contribution, this ASU assists in determining whether a contribution is conditional or unconditional, and if unconditional, whether the transaction is donor-restricted for limited purpose or timing. There was no material impact on the Foundation's financial position and changes in net assets as a result of the adoption of this accounting standard.

Note 2: Programs, Scholarships, and Grants

A key mission of the Foundation is to fund initial planning and development of projects which have the potential to attract broad-based local and state partnerships and to be self-sustaining. The SECU Foundation promotes local and community development primarily by funding high impact projects in the areas of housing, education, healthcare and human services. Ideas for potential projects are initiated primarily through local SECU branch Advisory Boards. Each SECU branch office has an Advisory Board comprised of up to twelve members who represent the interests of the membership to the local management staff and to the Board of Directors of the SECU Foundation. All grants and awards for projects are approved by the SECU Foundation Board.

Since 2004, through the Foundation, SECU members have funded a \$10,000 four-year college scholarship for a graduating senior in every traditional public high school and provided two \$5,000 scholarships over two years to students attending each of the 58 community colleges in the North Carolina Community College System. In 2018, the Foundation set a limit of 435 scholarships to be distributed statewide. The allocation of scholarships will be based on the Local Education Agencies (LEA). The statewide distribution per school district ensures the equitable dissemination of scholarships across North Carolina. The Foundation will run the allocation formula each year based on the information provided by the Department of Public Instruction. This new allocation is to address sustainability of the program and ensure its long-term success.

In 2013, the Foundation collaborated with the North Carolina Community College System to establish the SECU Continuing Education Scholarship Program. Ten \$750 Continuing Education Scholarships are awarded to eligible students at each of the 58 North Carolina Community College Campuses for a one-year commitment of \$435,000. This initiative helps provide students with short-term job training for new careers or retraining to advance current job skills through the Community College System's Back-To-Work Program and continuing education courses. This initiative was discontinued in 2018 with no additional commitments. The outstanding balance at June 30, 2018 was \$225,000 with the project fully being disbursed in August 2018.

In 2018, the Foundation collaborated with the North Carolina Community College System to establish the SECU Bridge to Career Program. The program was established to help remove financial barriers for students seeking to obtain state-regulated or industry-recognized credentials that lead to sustainable wage careers within their local communities. The Program had an initial funding of \$474,000 for 20 Community Colleges. During the fiscal year 2020 an additional \$879,000 was granted to the program. The outstanding balances at June 30, 2020 and 2019 were \$966,500 and \$782,000, respectively.

In 2014, the Foundation, East Carolina University (ECU), North Carolina Community Colleges, and North Carolina public schools collaborated in the creation of SECU Partnership East scholarships with an initial funding of \$2.28 million. This program allows students to graduate with a four-year degree from ECU by completing the first two years of the program at any one of the partnering community colleges followed by taking ECU courses online. Students graduate with a Bachelor of Science degree in elementary education, middle grades education or special education. The outstanding balance at June 30, 2020 and 2019 was \$15,200.

In 2015, the Foundation and Appalachian State University (ASU) Foundation collaborated in the creation of the SECU Appalachian Partnership program with an initial funding of \$1.76 million. The scholarships will support junior and senior students enrolled in elementary education, middle grades education or special education program. Eligible students will graduate with a four-year teaching degree from Appalachian State University Reich College of Education by completing the first two years of coursework at regional community colleges. The outstanding balances at June 30, 2020 and 2019 were \$460,776 and \$670,745, respectively.

Additionally, in 2015, the Foundation partnered with the University of North Carolina – Pembroke, Appalachian State University, and East Carolina University to roll-out a pilot program named the SECU Internship Program with an initial investment of \$300,000 and provided for each university to be awarded up to \$100,000 in support of paid internships for 20 qualifying in-state undergraduates for the summer of 2015. The program is designed to provide sophomore or junior college students with meaningful job experiences through internship assignments focused on local leadership in rural North Carolina communities. This initiative was continued with additional commitments of \$1,100,000 in 2020 and \$850,000 in 2019. The outstanding balances at June 30, 2020 and 2019 were \$756,290 and \$453,813, respectively.

The University scholarship, Community College scholarship, Continuing Education scholarship, SECU Partnership East, SECU Appalachian Partnership, SECU Bridge to Career, and SECU Internship program commitments total \$8 million in 2020 (\$7.2 million in 2019) and total over \$85 million since inception of the educational programs in 2004.

In 2005, the Foundation granted \$2 million for the SECU Family House at UNC Hospitals to provide a convenient, safe, and affordable haven for those far from home needing a place to rest while caring for a loved one at UNC Hospitals. In 2017, an additional \$2,000,000 was granted for constructing, furnishing, and landscaping an expansion of this project. The outstanding balances of the grant at June 30, 2020 and 2019 were \$500,000 and \$1,000,000, respectively.

The Foundation has partnered with NC GreenPower for the advancement of renewable energy sources since 2007. NC GreenPower is a non-profit organization that works with electric utilities across the state of North Carolina to encourage development of renewable energy. In 2015, the Foundation granted \$140,000 to NC GreenPower Pilot Schools Program to assist in installing a five-kilowatt solar photovoltaic system in up to 14 North Carolina K-12 schools. This project will serve as an educational

tool as well as offer greater energy efficiency. In 2020 an additional \$200,000 was granted to continue the installation of three or five kilowatt solar photovoltaic systems. The outstanding balances at June 30, 2020 and 2019 were \$199,054 and \$74,813, respectively.

Since 2007, the Foundation has provided a grant to support the administration of the North Carolina State Employees Combined Campaign which raises funds from state government employees for a variety of charities and educational efforts. In 2018 a four-year renewal was granted in the amount of \$82,956 to continue supporting the campaign. The outstanding balances of the grant at June 30, 2020 and 2019 were \$40,884 and \$60,575, respectively.

Since 2008, the Foundation has sponsored the Governor's Awards for Excellence program. The Awards for Excellence program honors the achievements of State employees by recognizing 16 deserving State employees who have demonstrated outstanding achievements in the categories of Human Relations, Innovations, Outstanding State Government Service, Public Service, Heroism and Spirit of North Carolina. In 2018, \$72,000 was granted to be disbursed equally over a four-year period. The outstanding balances of the grant at June 30, 2020 and 2019 were \$17,525 and \$52,589, respectively.

As discussed in Note 3, prior to 2016, management had concluded that loan receivable balances were fully collectible as of the date of the Statements of Financial Position based on assessment of historical collectability, the status of individual loans, and the value of collateral. In 2016, the Foundation entered an agreement with Habitat for Humanity for the purchase of mortgage loans in North Carolina and an allowance for loan loss was established. As of June 30, 2020, and 2019 the Foundation had an allowance balance of \$491,572 and \$413,904, respectively.

Note 4: Allowance for Loan Losses

In 2016, the Foundation entered into an agreement with Habitat for Humanity for the purchase of mortgage loans in North Carolina. In 2016, management established an allowance for loan losses that estimates losses inherent in the loan portfolio. The allowance for loan losses is established through a provision for loan losses charged to expense. Loans are charged against the allowance when management believes that the principal and interest is uncollectible. Any recoveries of previously charged off loans are recorded to the allowance to offset the charge-off. The Foundation has no net loan charge-offs for the years ended June 30, 2020 and 2019.

A summary of the activity in the allowance for loan losses for the years ended June 30, 2020 and 2019 are as follows:

	2020	2019
Beginning balance	\$ 413,904	\$ 60,008
Provision for loan losses	-0-	71,568
Transfer from Habitat Escrow Payable	77,668	282,328
Charge-offs	-0-	-0-
Recoveries	-0-	-0-
Allowance for loan losses	<u>\$ 491,572</u>	<u>\$ 413,904</u>

A portion of the allowance for loan loss is specifically for the coverage of any losses from the Habitat for Humanity loans and is funded by the Habitat for Humanity escrow account. Any losses incurred from Habitat for Humanity loans within three years of the closing of the final loan can be covered by the funds in the Habitat for Humanity escrow account. The funds cannot be used to cover losses on non-Habitat for Humanity loans and therefore, are in a separate allowance. The three-year period ends May 2023. A summary of the breakdown of the allowance for loan losses for the years ended June 30, 2020 and 2019 are as follows:

	2020	2019
Allowance for loan losses - Non-Habitat	\$ 131,576	\$ 131,576
Allowance for loan losses - Habitat	359,996	282,328
Allowance for loan losses	<u>\$ 491,572</u>	<u>\$ 413,904</u>

The Foundation's loan portfolio consists of a combination of larger balance Teacher Housing loans and other Foundation loans, as well as smaller-balance homogenous Habitat for Humanity loans that are collectively evaluated for impairment. Interest expense recognized on grants and scholarships payable amounted to \$182,459 for 2020 (\$199,563 in 2019).

Note 6: Liquidity

The Foundation receives contributions without donor restrictions from members of State Employees' Credit Union to be used in accordance with the missions of the Foundation.

The Foundation regularly monitors liquidity required to meet its operating needs and other contractual commitments, while also striving to maximize the investment of available funds. The Foundation had \$33,227,581 and \$37,285,111 in cash and cash equivalents as of June 30, 2020 and 2019, respectively. Cash and cash equivalents include interest bearing checking accounts and money market accounts.

Note 7: Subsequent Events

Management evaluated subsequent events through August 19, 2020, the date the financial statements were available to be issued. Events or transactions occurring after June 30, 2020 but prior to August 19, 2020 that provided additional evidence about conditions that existed at June 30, 2020 have been recognized in the financial statements for the year ended June 30, 2020.

In March 2020, the World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the Foundation, COVID-19 may impact various parts of its future operations and financial results including but not limited to potential for foreclosures, delinquent loan payments, or decreased contributions. Management believes the Foundation is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as these events are continuing subsequent to year end.
